SUMMARY

Data Science and Gen AI enthusiast with strong skills in Python, SQL, Machine Learning and Data Visualization. Experienced in building and deploying LLM-powered apps using tools like LangChain, FastAPI, Gemini/OpenAI APIs. Passionate about turning data into actionable insights and creating intelligent AI-driven solutions to solve real-world problems

TECHNICAL SKILLS

Languages: Python, SQL. Gen AI & LLMs: LangChain, Gemini, Ollama, OpenAI,

Frameworks & Tools: FastAPI, Streamlit, Git, Jupyter Notebook, Flask, VS Code.

Libraries: NumPy, Pandas, Matplotlib, Seaborn, Scikit-learn

Machine Learning & Analytics: EDA, Predictive Modeling, Model Deployment, Feature Scaling, ETL.

PROJECTS

HR Analytics Dashboard | [Project Link](#)

Jul 2026

Technologies: Power BI, Excel, DAX, Power Query

- Built an interactive HR Analytics dashboard to visualize employee performance, attrition, workforce demographics, and key HR KPIs.
- Designed dynamic dashboards and reports using DAX measures and Power Query, enabling data-driven workforce insights and business decision-making.

Sales Prediction using Machine Learning | [Project Link](#)

Dec 2025

Technologies: Python, Pandas, Scikit-learn, Matplotlib

- Developed a Linear Regression model to forecast future sales using historical business data, including data preprocessing and feature engineering.
- Evaluated model performance using regression metrics and visualized predictions to support business forecasting.

Zomato Chennai Location Intelligence | [Project Link](#)

May 2026

Technologies: Python, Pandas, Matplotlib, Seaborn, streamlit

- Performed exploratory data analysis on Chennai restaurant data to identify pricing trends, customer preferences, and location-based insights.
 - Created visualizations and generated actionable business recommendations through data-driven analysis.
-

INTERNSHIP

Data Science Training Program

Chennai, India

Besant Technologies

Aug 2025 – Jun 2026

- Gaining hands-on experience in data analysis, machine learning, and visualization using SQL, Python, Power BI, and Tableau.
 - Working on real-world projects involving predictive analytics, data preprocessing, and business intelligence.
-

EDUCATION

St Peter's College of Engineering and Technology

Chennai, India

- Bachelor of Technology in Information Technology with CGPA of 8.54.

Nov 2022 – May 2026

CERTIFICATIONS & ACHIEVEMENTS

- Advanced Data Science – **[Besant Technologies](#)**
 - Data Analytics & Visualization Job Simulation – **[Accenture Forage](#)**
 - Data Science Job Simulation – **[BCG X Forage](#)**
 - Data Visualization Job Simulation – **[Tata Forage](#)**
 - Data Science Job Simulation – **[British Airways Forage](#)**
